

REPUBLICANS RAP TARIFF MEASURE

Minority of Ways and Means
Committee Files Report on
the Underwood Bill.

The minority members of the Ways and Means Committee filed with the House today their dissenting views on the Underwood tariff bill, which the Republicans criticize from beginning to end.

The ad valorem rates of the bill are denounced, and it is declared that every Secretary of the Treasury is bound to have in view the interests of the country when he has to choose between a tariff and a revenue measure.

Republican members of the Ways and Means Committee made their report public in advance of the actual presentation of the Underwood bill, following its approval by the Democratic caucus.

The Republicans, in other words, get in the first blow by showing their views before the majority report is filed.

Will Analyze Bill Later.
"The proposed bill seems to meet with universal approval on the other side of the Atlantic," is one of the Republican thrusts at the Underwood measure.

"There is no question about the fact that the bill is a revenue measure, and that it is a measure of the kind which the majority of the American people are entitled to expect from the majority of the House."

Repeal members of the Ways and Means Committee assert that the Democratic bill, on its very face, is not a revenue measure, and is out of harmony with the tariff policy of the Democratic administration.

"In presenting the bill," continues the minority report, "the committee is met with a threatened deficit in revenue of about \$100,000,000, which it is compelled to meet by extraordinary methods of taxation which are entirely new in time of war."

The minority members make no attempt to analyze at this time the bill, but term the glaring inconsistencies of the Underwood bill. It is explained that this analysis will come down in the debate in the House, and is impossible at this time because no minority member of the Ways and Means Committee had an opportunity to examine the Underwood bill until it was introduced in the House.

"Our acquaintance with it is therefore too brief for analysis here," says the minority report.

The Republican report makes specific reference to the wool and cotton schedules, saying:

"The reports of the Tariff Board on schedule K and I show that the duties on these two schedules are not only revised, but not in accordance with the ill-considered rates proposed in this bill."

Will Reverse Economic Policy.
At the minority conference tomorrow night it will be determined whether the Republicans shall present substitutes for these two schedules of the Underwood bill.

The report reviews the prosperity of the country under the protective system, and declares that the Underwood bill aims at a complete reversal of the tested economic policy of the Government.

Special criticism is made of the Democratic plan to repeal the beneficial maximum and minimum clause of the Payne law, "under which we have been able to make headway against the discriminating tariffs of Europe."

It is declared that the provision authorizing the President, with the consent of Congress, to negotiate trade agreements with other nations is a useless one, as the President and Congress already have this power.

While fearing a Treasury deficit under Democratic rule, the minority members assert proudly that no new debt has been incurred since a full Treasury as the Wilson Administration, and that all must admit the prosperous condition of governmental finances.

Charge Numerous Discriminations.
In its brief criticism of the defects of the bill, six minority members say that even casual study shows numerous discriminations. The report continues:

"And yet it would be erroneous to charge that all the rates have been laid with an eye single to revenue only. Some of them carry 'incidental protection,' which, on the face of it, shows that incidental protection is planned as a part of the scheme of the framers of the bill. These features are sporadic and generally have a local coloring."

"This bill aims at a complete reversal of the economic policy of the Government. During a period of nearly fifty years we have had a protective tariff in this country. Under it we have built up manufacturing industries not approached by those of any other country. The farmers have prospered marvellously. In purchasing power, the true test, the wages of our laborers have never been approached by the wages of any other people. Under the present tariff law this universal prosperity has reached the very highest point. Every laborer willing to work is fully employed. Even the poorest class of laborers employed at the lowest wages have still been able to send surplus earnings to their native countries."

The President is well pleased today over the progress made in disposing of the tariff bill, and feels confident that there will be no hitch in getting it through the House, and that the Senate situation will smooth itself out before the measure is taken up there.

He has made it plain to all his callers that he believes the bill will go through approximately as at present arranged. The sugar and wool schedules will be insisted on to the last by the President.

but he believes that the Senators who are now objecting so strenuously to them will come around to the belief eventually that the party is pledged to enact just such a law and in the final line-up they will be on the side of the bill.

The attempt being made to characterize as unworkable the reciprocity provision of the bill, which gives the President, with the consent of both Houses, the right to negotiate preferred treaties with other nations, meets with no response at the Executive Offices. The President's position is that Congress is legislating for the whole of the people in the tariff bill and that the interests of the people are paramount. If it should be found that the rates under the bill are so low that no concessions can be obtained from other nations the Administration will not worry, but will assume that the people and not the manufacturers have received the benefit.

"The tariff bill and the interests of the people are paramount. If it should be found that the rates under the bill are so low that no concessions can be obtained from other nations the Administration will not worry, but will assume that the people and not the manufacturers have received the benefit."

"The tariff bill and the interests of the people are paramount. If it should be found that the rates under the bill are so low that no concessions can be obtained from other nations the Administration will not worry, but will assume that the people and not the manufacturers have received the benefit."

"LAW BEHIND TIMES," BELIEF OF HOLMES

Supreme Court Justice Says
Truth of Charges Should
Be Earnestly Sought.

That the attacks on the courts are merely an expression of the prevailing unrest which seems to wonder whether law and order pay, is the opinion expressed by Justice Holmes, of the Supreme Court, in a speech given recently at a private dinner in New York, and now printed as a public document. He pointed out that the courts are charged with upholding functions, and with being a tool of the money power.

"I get letters, not always anonymous, intimating that we are corrupt. Well, gentlemen, I admit that it makes my heart ache. It is very painful, when one spends all the energies of one's soul in trying to do good work with no thought but that of solving a problem according to the rules by which one is bound, to know that many see sinister motives and would be glad of evidence that one was consciously bad."

Must Seek Germ of Truth.
But we must take such things philosophically and try to see what we can learn from hatred and distrust and whether behind them there may not be some germ of inarticulate truth.

Judges, he said, especially in State courts, had read their sympathies prematurely into law.

"It cannot be helped—it is as it should be—that the law is behind the times," declared Justice Holmes. "As law embodies beliefs that have triumphed in the battle of ideas and then have translated themselves into action, while there is doubt, while opposing convictions still keep a battle front against each other, the time for law has not come; the notion destined to prevail is not yet entitled to the field."

Sees New Complication.
Justice Holmes said that as he grew old he grew calm, and he predicted competition from new races would cut deeper in the future than workingmen's disputes and test whether "we can hang together and fight."

Justice Holmes said that as he grew old he grew calm, and he predicted competition from new races would cut deeper in the future than workingmen's disputes and test whether "we can hang together and fight."

LODGE CONDUCTS JOHNSON FUNERAL

Captain Had Been Master of
Vessels in Coast and Bay
Trade Many Years.

The funeral of Capt. Cornelius W. Johnson, for many years master of vessels in coastwise and bay trade, who died Friday at his home, 319 Eleventh street southwest, was held from the home at 10 o'clock today. The funeral was held according to the rites of Metropolitan Lodge of Odd Fellows, of which he was a member. He was also a member of Centennial Lodge of Masons.

Captain Johnson, whose brothers have been in the coal business in Washington, was born near Cambridge, on the Eastern Shore of Maryland, seventy-three years ago. He had lived in the southwest section of Washington, however, for thirty years.

Captain Johnson is survived by his widow, four daughters, and three sons.

MRS. MARY J. HALLORAN.
The funeral of Mrs. Mary J. Halloran, who died Saturday at her home, 1014 L street northwest, was held at 3 o'clock today in St. Aloysius Church. Interment was made in Mt. Olivet Cemetery.

Mrs. Halloran was one of the oldest residents of the district, having lived here for more than fifty years. She was born in Limerick, Ireland, but came to this country when a small child and settled in Utica, N. Y. Her father died shortly after arrival in this country. Fifty years ago Mrs. Halloran moved to Washington and has lived here ever since.

She is survived by eight children: Matthew F., William T., John A., Bernard F., Charles E., Mrs. Margaret E. Burns, Mrs. Catherine E. McCalmont, and Mrs. Mary Berry.

EUGENE L. COOMBS.
The funeral of Eugene L. Coombs, who died Saturday in his home, 1117 Eighth street northeast, will be held this afternoon at 2 o'clock from the home. The burial will be in Mt. Olivet Cemetery.

The funeral will be under the direction of members of Keane Council, Knights of Columbus, and will be private.

JOSEPH PALMER.
The funeral of Joseph H. Palmer, who died Saturday after a short illness, was held from his home in Rosslyn at 1 o'clock this afternoon. Burial was in Rock Creek Cemetery.

Mr. Palmer was the oldest employee of the National Museum, having been in the service of the Government for more than forty years. He was an authority on taxonomy, and the modeling of animal forms. He is survived by his wife and one son, Joseph Palmer, jr.

Three specimens of portrait busts made by Jerome Connor, the Washington sculptor, have been placed on exhibition at the Corcoran Gallery of Art. They are of Col. John A. Joyce, the poet; Senator William L. Bradley, the statesman; and Miss Genevieve Clark, daughter of the Speaker of the House.

GIBBONS TO LEAVE ANNAPOLIS SOON

Superintendent to Be Replaced
at Academy, According to
Capital Report.

Capt. John H. Gibbons, superintendent of the United States Naval Academy, is to be relieved from his present assignment soon, and will be assigned to a tour of sea duty in command of one of the battleships of the American fleet.

This rumor, of a semi-official nature, is given great credence, not only in Washington naval circles, but in Annapolis, where Captain Gibbons has been detained in general charge of the midshipmen.

The transfer, it is said, will follow out the plans of Secretary of the Navy Daniels to make a number of changes in the personnel of ships commands and staff assignments.

At the Navy Department it was stated that no information regarding the proposed changes could be given.

"So far as I know," said Captain Trench, "no such changes at the Naval Academy are contemplated."

It is understood that Capt. W. S. Benson, former commandant of midshipmen, would succeed Captain Gibbons in the Academy, and that Capt. Benson would be familiar with the duties of superintendent of the Academy, and is popular with the officers detailed there as instructors.

Willow Tree Alley
Project Begins May 1

Work on the conversion of Willow Tree Alley into an interior park will begin May 1, according to an announcement of the District Engineer Department today. Bids for the removal of the seven-odd dwellings will be opened at the District building April 22.

Congress appropriated \$200,000 for the removal of Willow Tree Alley, between Third and Fourth-and-a-half and B and C streets southwest, long characterized by the Police and Health Departments as a plague spot, and its conversion into an interior park. The cost of condemnation did not, however, exceed \$20,000, leaving a balance of \$180,000, part of which will be expended in improvements.

Cured Pimples and Blackheads.
W. B. Hackett, 623 Golden Gate Ave., San Francisco, writes: "I was bothered for several years by unsightly pimples on my face, as well as blackheads, which were a source of much discomfort and embarrassment. At last I decided to try Resinol Soap and Resinol Ointment. I am happy to say that I am entirely rid of the eruptions, and my skin is clear of all blemishes. I also find that Resinol works wonders when used to cure cold sores, etc."—Adv.
